

Helen MacEwin

Helen MacEwin is from Canada and has been woodcarving since she was a teenager, (a million years ago). It has only been since snow birding in Florida in 2008 that she joined a carving club (Charlotte County Woodcarvers) and started learning about woodcarving. One of her favorite projects is carving comfort birds. Over time she has developed a method of painting them and is pleased to show you how it is done.
